TANGO咖啡機能夠同一時間製造4款飲品。它功能卓越，遠勝同類產品。

生產TANGO的UNIC公司，自1919年起便從事咖啡機的生產和設計，他們的產品設計新穎，在行內佔有舉足輕重的地位。

TANGO

The Tango offers you two super-automatic machines in one! With its

ability to produce up to four beverages simultaneously, the Tango outperforms any other machine on the market and answers every need.

The Tango is the result of UNIC'S experience, since 1919, in the design and production of high-quality, high-performance espresso equipment, serving the catering community of restaurants, hotels and multiples.

The state of the art design, inspired by the New Edge fashion, will make the Tango a focal point in any establishment. Having kept the quality of the extracted coffee always as a priority, the additional programming features mean that the Tango can offer the user the best of both worlds.

雙倍效能的 TANGO 咖啡蒸餾機

為了滿足不斷增長的市場需求，全新的全自動 TANGO 咖啡蒸餾機已經面世，相對現有的型號來說，TANGO 的性能可增加一倍。TANGO 的設計別具創意，機身配有兩個咖啡浸泡裝置，利用同一機件便可同步操作。

這種設計使咖啡流出量倍增，一次可泡製四杯咖啡，最高每小時可達 400 杯。

這種獨特的結構不僅可以配製咖啡(利用內置的兩部研磨機即時磨製)，

還可將沉澱物從兩個泡製箱中排出。
